# Living Creations Pvt. Ltd.

A humble beginning in September 1996, with a commitment to create dream space of your imagination to its perfection.

A truly professional team with unbroken attitude and committed to fulfil your aspiring designs at any condition at the minimum possible time.

Working in tandem with the architects and interior designers we strive relentlessly to translate their creations into reality. By not keeping ourselves confined to the role of mere executors we try to rise beyond the level of mediocrity with experienced & devoted craftsmanship.

We are one of the leading organizations engaged in Interior Decoration (False ceiling, paints, flooring etc.), Electrification and allied works, mainly in the eastern part of the country. We are also the channel partners of the following multi- national company:

- SAINT-GOBAIN for Gypsum False ceiling and Partition systems.
- BP ERGO HNI, world's 2nd largest in furniture and seating solutions, for state of the art modular furniture, storage, and cabin partitions.
